

Shared Area Radio Agreement

Driven by Local Public Safety Agencies...

to address different needs than State Agencies

Largest P25 System(s) in Iowa....better indoor and outdoor coverage, more users and more radios

- 93 sites on the air/being constructed today with 12,000+ radios
- 10-12 more sites and over 1500 radios pending
- Central, Eastern Iowa and growing!

Local Sheriffs and 911 Boards Need to Own and Control their communications:

- **No Statewide Board with dominion over your radio system or your decisions**
- **Better Indoor Coverage** – for improved safety. Built for your local needs
- **Interoperability** –direct connections from SARA to all your local interop partners on VHF
- No Forced **Investments** and **Upgrades**
- **You control ALL the frequencies**
- **Radio Options** – your choice of brand and provider

A Better Alternative for your Day-to-Day Operations

Security and Longevity

- Costs guaranteed (not subjected to the annual State budget or State's financial position)

LESS EXPENSIVE than ISICS every time!

Comprehensive Support –

- RACOM locally services all PSAP solutions – E911, radio, paging, logger, furniture, vehicles lights, etc.
